

JRD IRON AND STEELS

INTRODUCTION LETTER & COMPANY PROFILE

...A Stronger, Longer Life...

This letter serves as a formal introduction of **JRD IRON AND STEELS**, The JRD IRON AND STEELS Company was established in 2019, a leading trading company specializing in Iron Steels, Sheet Metal, MS Pipes, MS Tubes etc., We have been operation in the market for (7) years, building a strong reputation for reliability, quality, and efficient trading solutions.

At JRD IRON AND STEELS we are dedicated to providing our clients with a seamless and profitable trading experience. Our core strengths lie in sourcing high-quality goods, efficient logistics, competitive pricing, and strong supplier relationships. We are committed to understanding your specific needs and tailoring our services to help you achieve your business goals.

The Companies fortune lies in distributing Steel to a large base of Customers with varied scale of operations and customizing ourselves in order to cater to our customers' requirements.

Trust is continuing theme at JRD IRON AND STEELS. While the trust of its customers has given them a place at the top, which is repays in kind JRD IRON AND STEELS also considers its duty to repay its dues by taking care of those who find themselves in less fortunate situations.

From 1 employee in 2019, JRD IRON AND STEELS has currently 12 employees on its rolls. In the year 2019 from an only trading organization our focus has shifted to OEM supply. Today we have a mix of market as well as OEM. We have a long-standing mutual relationship with our principal Suppliers to enhance the marketing of their products with the best facilities and efforts to grow year on year.

Today JRD IRON AND STEELS is lifting 20000 M.T of CRCA, HRPO, HR, GP/GPSP, MS TUBES and colour coated per annum.

Today we are supplying material to the whole of Maharashtra and other parts of India. As our company is one of the leading Stockiest it keeps about 1000 M.T. of Steel in ready Stock.

We have always emphasized trust, integrity and customer satisfaction. These core values have helped us build strong relationships with customers and suppliers alike. With years of effort, we established ourselves as a preferred choice in the steel industry.

We are confident that our services can help you achieve similar success. We would welcome the opportunity to discuss your specific needs and outline how we tailor our solutions to your requirements.

Please feel free to contact us at your earliest convenience.

COMPANY PROFILE:

We are a wholly Indian owned company, managed by the owner and a group of dedicated professional staff. We employ 12 people with sales team, Accounts, & Support staff.

Our rapid growth is largely a result of repeat orders from customers who appreciate our services excellence and customer focus.

The value of integrity, fairness and trust have been the greatest assets that made JRD IRON AND STEELS What it is today, and they also embody the greatest value criteria that will sustain JRD IRON AND STEELS Open up new future.

DEALS IN:

PRODUCTS:

- ❖ **CRCA: IS 513: CR1, CR2, CR3, CR4, CR5 AND HSLA**
- ❖ **CRFH: IS 513: Galvanizing Grade**
- ❖ **GPSP Skin Pass Coil & Sheets**
- ❖ **HRPO/HRSP0: IS 513: D-1079, DD, E250**
- ❖ **PPGI, PPGL {Sheet Coil & Profile}**
- ❖ **GP Coil & Sheets**
- ❖ **CRCA Steel Coils and Sheets**
- ❖ **HRPO/HRSP0 Steel Coils and Sheets**

We hope that you will provide us an opportunity to render our services to an esteemed organization like yours.

CRCA STEEL, COIL & SHEETS:

CRCA or Cold-Rolled Closed Annealed goods are low carbon steel products that are known for their features to meet specific, customized requirements, such as: Formability, Workability, Close thickness tolerances, better flatness, and clean surface to meet the close customer specific requirements. Cold-rolled coils are a type of steel product that undergoes a specific manufacturing process known as cold rolling. Unlike hot-rolled coils, which are produced at high temperatures, cold-rolled coils are manufactured at room tempera or slightly below.

APPLICATIONS OF CRCA PRODUCTS:

- ❖ **Automobiles**
- ❖ **Telecommunications**
- ❖ **Home Appliances**
- ❖ **Engineering and Fabrication**
- ❖ **Electrical**
- ❖ **Aerospace**
- ❖ **Furniture**
- ❖ **Information Technology**
- ❖ **Drums and Barrels**

CRCA SPECIFICATIONS & GRADES:

GRADE	S513: CR1, CR2, CR3, CR4, CR5.
THICKNESS	0.25-3.20MM (Tolerance: 0.03 for T≤1.00mm, 0.06 for T> 1.00mm)
WIDTH	4.5 mm to 1850 mm
LENGTH (FOR SHEETS)	As Per Customer's Requirement
FINISHED	Bright, Semi-Bright, Normal, Rough

HRPO & HRSPO STEEL COIL AND SHEETS:

HRPO or Hot Rolled Pickled and Oiled products and HRSPO or Hot-Rolled, Pickled, Skin passed and Oiled products are low carbon steel goods available in the Hot-Rolled Flat products category. Hot-rolled coils are characterized by their smooth, scaled surface, which is a result of the high temperature during the rolling process. The hot rolling process helps refine the microstructure of the steel, resulting in improved mechanical properties such as higher yield strength and ductility. These are used mainly in instances where Flatness and Surface Finish are not the main criteria.

THIS MATERIAL POSSESSES:

- ❖ **Good Strength**
- ❖ **Weldability & Formability**

APPLICATION OF HRPO PRODUCTS:

- ❖ **Automobiles**
- ❖ **Telecommunications**
- ❖ **Engineering and Fabrication**
- ❖ **Aerospace**
- ❖ **Furniture**
- ❖ **Drums and Barrels**

HRPO & HRSPO SPECIFICATIONS & GRADES:

GRADE	IS 1079/1994 - GRADES HR0, HR1, HR2, HR3, HR4 IS 10748 Grade1 - 5; (JIS G 3113 SAPH310, 370, 400 & 440)
THICKNESS	1.60 - 6.00mm
WIDTH	10 mm to 2000 mm
LENGTH (FOR SHEETS)	As Per Customer's Requirement

CHARACTERISTICS:

- ❖ **Good Surface Finished**
- ❖ **Flatness**
- ❖ **Weldability**
- ❖ **High Strength to Weight Ratio**
- ❖ **Close Dimensional Tolerances**

HOT DIP GALVANIZED STEEL COIL AND SHEETS:

Galvanized steel coils are steel products that have been coated with a layer of zinc to provide enhanced corrosion resistance and durability. Hot Dip Galvanized Steel is pure zinc or zinc alloy coated steel, which gives a superior corrosion resistance. The surface of the steel is categorized by the formation of the crystallization texture called 'Spangles'. Because of the better surface finish and excellent corrosion resistance, these steels are used in atmospheric environment as well as bare (Natural Finish) products in many segments.

APPLICATIONS OF HOT DIP GALVANIZED PRODUCTS:

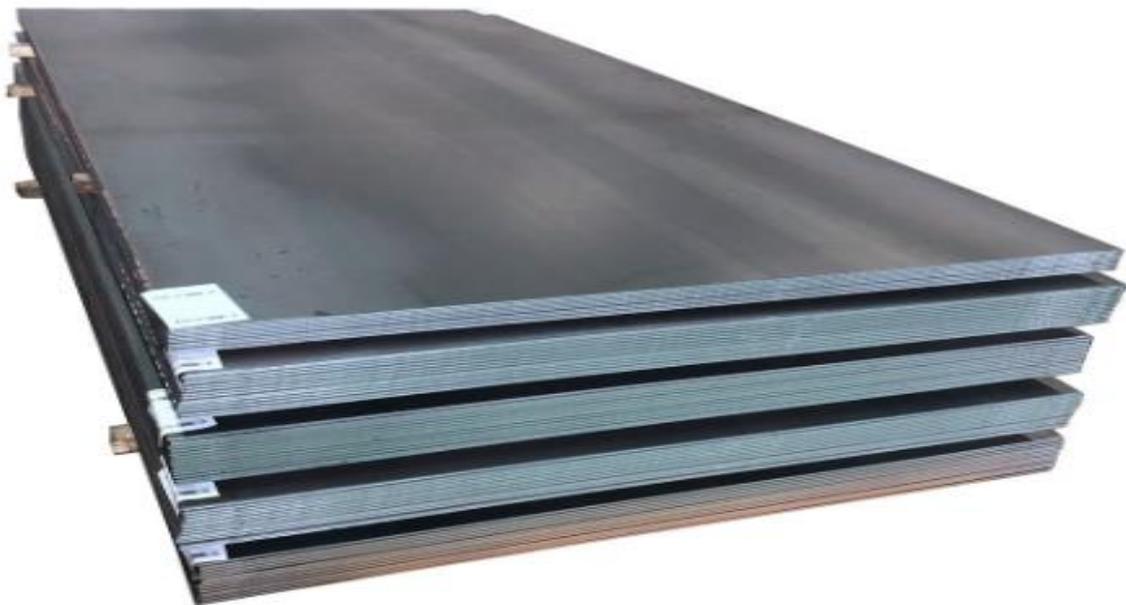

- ❖ **Automobiles**
- ❖ **Telecommunications**
- ❖ **Home Appliances**
- ❖ **Engineering and Fabrication**

❖ Aerospace

❖ Furniture

❖ Information Technology

HR ROLLED (HR) BLACK:

HR Black Sheet, also known as hot-rolled black steel, is a type of steel sheet characterized by its dark, scaly surface due to oxidation during the hot-rolling process. It's known for its high strength, weldability, and is commonly used in applications where surface finish is not a primary concern, such as structural components, heavy machinery parts, and industrial equipment.

APPLICATION OF HR BLACK PRODUCT:

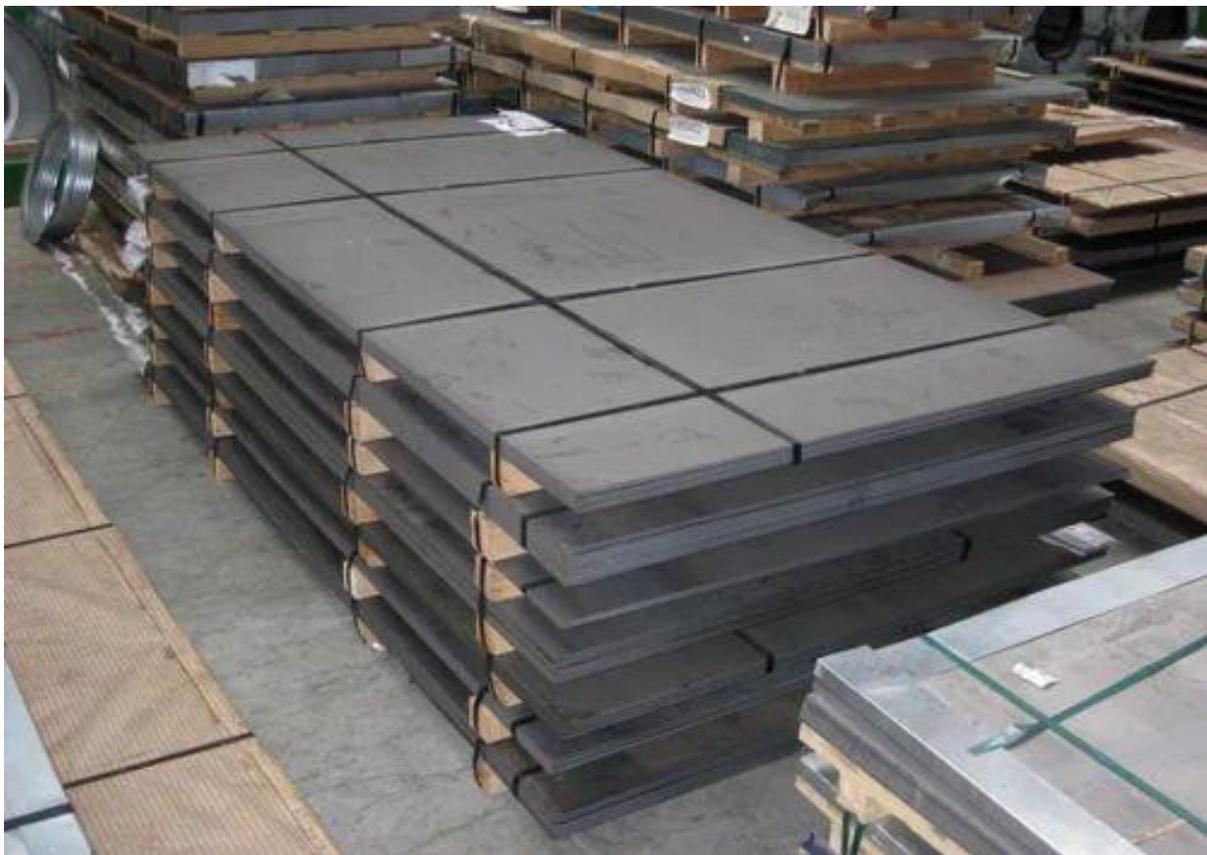

- ❖ **Construction**
- ❖ **Automotive**
- ❖ **Industrial Fabrication**
- ❖ **Pipelines**
- ❖ **Heavy Equipment**
- ❖ **Renewable Energy Infrastructure**

CHARACTERISTICS:

- ❖ **Surface Finish**
- ❖ **High Strength**
- ❖ **Weldability**
- ❖ **Formability**
- ❖ **Cost Effectiveness**
- ❖ **Corrosion Resistance**

HOT ROLLED (HR) BLACK SPECIFICATIONS AND GRADES:

GRADE	IS 2062 - E250, E275, E350, E410 – A/BR/BO/C IS 5986 – ISH 330 / 360 / 410 / 430
THICKNESS	1.6mm – 25.4mm
WIDTH	They are also available in different lengths and widths, often specified by the customer or based on standard sizes.
LENGTH (FOR SHEETS)	As Per Customer's Requirement

We hope the above is acceptable and look forward to an opportunity to become an approved supplier.

For quotations or further information please contact the undersigned for prompt attention.

CONTACTS:

MATERIAL AVAILABILITY AND DISPATCH LOCATION FROM: -

[TALOJA [MUMBAI], PUNE AND NASHIK.]

Registered Address: -

 SHOP NO 13, PEARL PARK, XLO POINT AMBAD, NASHIK - 422010
(MAHARASHTRA) INDIA.

Office & Factory Address: -

 PLOT NO S-25/1, MIDC AMBAD NASHIK 422010 (MAHARASHTRA)
INDIA.
